

## SILLAGE 2

Craie

Gris

Poudre

Taupe

Terracotta

Bleu nuit

Vert

Bois brûlé

"Sillage" evokes the use of one or several tools sweeping over an entire page in a random pattern, without apparent rules. It illustrates the idea of a paintbrush moving over a blank sheet, leaving behind traces and imprints that intersect to create a complex graphic composition. In an architectural arrangement, the panels can be joined together without regard for orientation, as there is no up, down, left or right side. The arrangement then takes the shape of a vast abstract painting.

Plissé

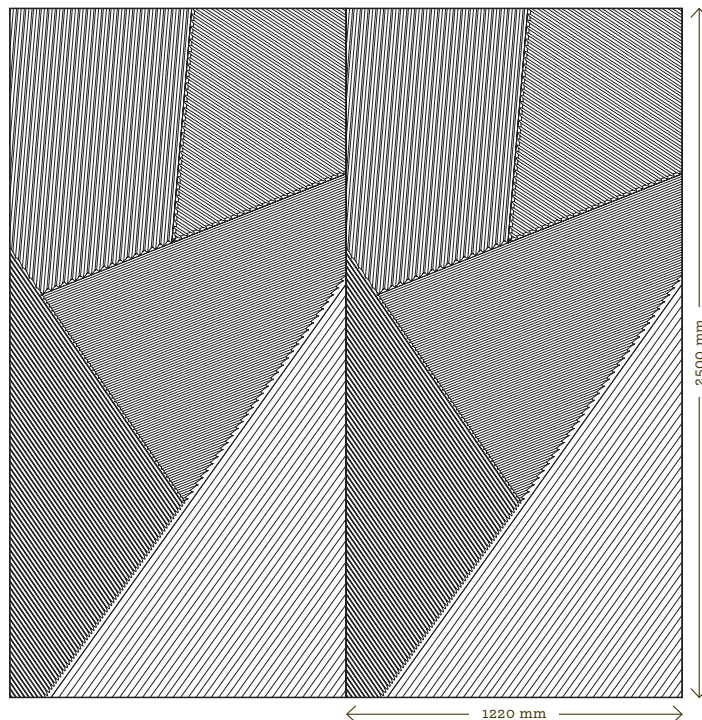

Bas-relief

Croisement
