

TRAIT ANGLAIS 2

Craie

Gris

Poudre

Taupe

Terracotta

Bleu nuit

Vert

Bois brûlé

Directly inspired by the drawing technique of the same name, the "Trait Anglais" family is build around upstrokes and downstrokes, thickness and depth to create volumes, shadows and optical illusions. The various patterns are organized around a vertical stroke or a linear imprint, which, despite its apparent simplicity, allows the possibility of creating complex shapes that reinterpret patterns derived from the history of art, but also more graphic, contemporary or even abstract figures.

Plissé

Bas-relief

Croisement

Tuile

Trait anglais

Sillage

Dimension:
2500 x 1220 mm
